Dear Sir or Madam:

Attached to this message is a .pdf file containing a commitment letter for the chemical Trifluoromethane, CAS# 75-46-7, for the HPV Challenge Program. Please post this information on the EPA HPV Challenge website. I have also attached a word version of the cover letter in addition to the signed copy of the cover letter in the .pdf file.

This chemical is considered an orphan under the program and has been listed on the 55th Interagency Testing Committee list. A robust summary and test plan will be submitted by April 2006, and any new testing will be complete within 24 months. Please consider this commitment to meet the definition of a "viable commitment".

With this commitment, DuPont requests the chemical be excluded from the Toxic Substances Control Act (TSCA) 8(a) Preliminary Assessment and Information Reporting (PAIR) rule and the TSCA 8(d) Health and Safety Data Reporting (HaSDR) rule.

Best Regards,
Edwin L. Mongan
